

## **Mobile Event App**

This year ISES will again utilize a mobile event app. Download the app from the App Store on your iPad, iPhone, or Android by doing the following:

- Go to the App Store (Apple, Google Play, Amazon or Blackberry World).
- Use the search phrase “ises annual meeting 2015” to find the app.
- Choose “Get” or “Download” to download the app. It will install on your device and the icon will appear on your device when the installation is complete.

**Note:** You may need to enter your App Store Password in order to install

The app includes PDF versions of the program and abstract book (found in the Meeting Documents icon). Registrants will receive a printed copy of the Schedule at A Glance, but not copy of the program unless this was purchased as part of pre-registration.
